

## Plate-i Plus Accessories

**Mount it where your project needs it.**

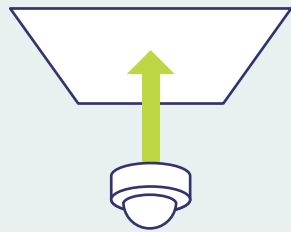

Every installation is different. We offer compatible mounting solutions for wall, pole, ceiling and corner setups, designed for clean and stable deployment of the Plate-i Plus family.

✓ Exclusively for the Plate-i Plus series

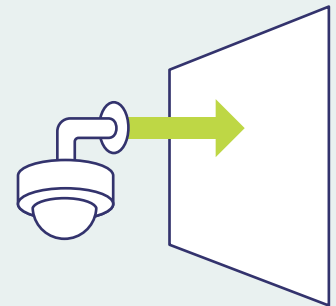

## Available mounting configurations

Four deployment types cover virtually every ALPR installation scenario – from access control at gates to overhead coverage in parking facilities.

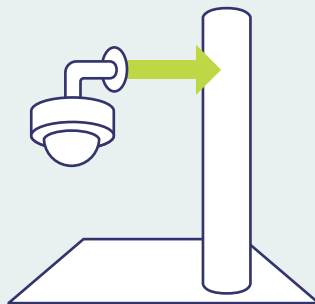

### Ceiling Mount

For overhead mounting in car parks, lanes under canopies, and indoor access points.

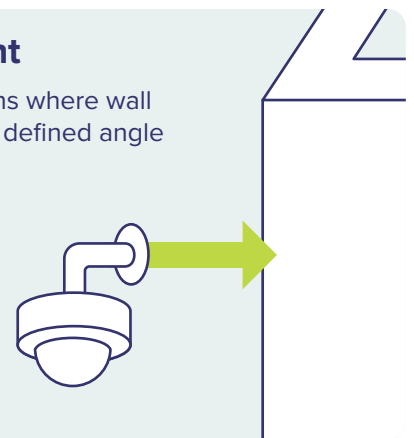

### Wall Mount

For side mounting at gates, barriers, and parking entrances.

### Pole Mount

For mounting on existing posts and masts in outdoor access and perimeter setups.

### Corner Mount

For corner positions where wall mounting needs a defined angle into the lane.

**Complete your ALPR installation with the right mounting solution.**  
Compatible mounting solutions for wall, pole, ceiling and corner installations.
